

Cam locks have evolved.

Now ONLY from CompX!

SELF-LOCKING
SlamCAM

SlamCAM converts CompX National cam locks into self-locking — just close the door or drawer.

TWO UNIQUE FEATURES IN ONE PACKAGE: SELF-LOCKING AND A SPRING-LOADED LATCH.

True convenience — release the key, and the self-locking component automatically returns the lock, along with SlamCAM, to the locked position.

- ◆ Retrofits CompX National cam locks C8051 through C8075
- ◆ Helps eliminate security concerns; slam the door and it's locked

Cam locks have evolved.

Upgrade CompX National cam locks (C8051-C8075) to SlamCAM with self-locking — two unique features in one package.

SlamCAM — spring loaded latch

Replacing steel cams with SlamCAM eliminates steel cams that crash into furniture or strikes while in the latched position. Bent cams can cause locks not to secure properly or secure at all.

Self-locking

The self-locking feature uses spring tension to conveniently return the lock to the locked position. User turns the key to the open position and opens the door or drawer. Upon releasing the key, the self-locking component returns the lock along with SlamCAM to the locked position; user simply closes the door or drawer — no need to turn the lock back to the locked position.

- ◆ **DESCRIPTION:** SlamCAM, a spring loaded latch, along with the self-locking component, converts CompX National cam locks (C8051-C8075) into self-locking.
- ◆ **PACKAGING:** Packaged with SlamCAM, self-locking component, four spacers, washer and three mounting screws

(use with C8051 and C8052 only)

INSTALLATION NOTE:

For C8051 and C8052, the washer must be installed between the cylinder and the self-locking component to secure the lock plug properly.

Part No.	Description	SlamCAM dimensions	Self-locking dimensions	Box quantity
NEW! C7017	SlamCAM, a spring loaded latch, along with the self-locking component, converts CompX National cam locks (C8051-C8075) into self-locking	13/16" wide, 1-7/16" high, 25/32" deep	3/4" diameter, 5/16" deep	25
		Note: Using the self-locking component adds 5/16" to the length of the lock.
