

Introducing **Puck Locks** from **CompX**

New! Puck Locks

Both Pucks are nickel plated and have hidden shackle pins, which make it hard to attack. The flat back and stepped back allow for use on various hasp designs. Check lock dimensions for the version that is best for your application.

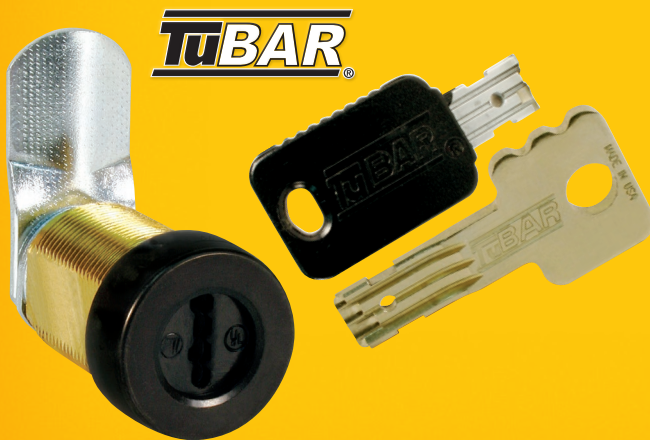

- ◆ Puck locks with stepped and flat back have **hardened steel housings**
- ◆ Industry standard latching points (can create custom latching points)
- ◆ Uses CompX high security locks and non-duplicable keys
- ◆ Can match existing CompX key codes
- ◆ Used on various locking points including Pulser security boxes and skirt doors
