

RegulatoR from **CompX**

Looking to **upgrade** **employee** **lockers?**

**RegulatoR has received the
upgrades you've requested!**

- ◆ Locker version in Single-use mode now offers confirmation for the user by requiring double input of the PIN code
- ◆ New Manager Code gives the ability to clear single use codes from the RegulatoR without ability to alter other features

**The best programming feature of RegulatoR
– there is no need for programming keys.
All programming is done at the lock.**
